

OWLSnet Wireless Statistics - February

Please note: this report has changed significantly since the wireless login page was removed.

** This report counts individual devices connected to the library's wireless service. For the purposes of this report, one device = one user.*

** Because there is no login page, devices that automatically connect to any wireless network within range may be counted, even though the user is not actively using the wireless service.*

** Each device is only counted once per day.*
